Conflict between inhabitants and oil port constructions

- Causes of conflict rising
- Methods and stages of conflict resolution

Main Stakeholders

- Oil port terminal
- Local authority
- Population
- Environment protection organization

Causes of conflict rising

-
- Limiting in moving within former “free” territories
 - Anxious of ecological damage . (If happens something...)
 - Constriction of territorial domain
 - Threat of derogation of property (my garden etc.)
 - Artificially created conflict situations by means of mass media
 - Not reliable and sufficient information
 - Incorrect handling of information

Methods of conflict disclosing

- Sociological pool
- Annual meeting of inhabitants
- Declaration about willing of inhabitants to meet with authority do discuss problem on situation connected with the port operation.

Stages of the conflict resolution

1. Authority appoints the date of meeting
2. Informs inhabitants about the date of meeting by mass media and on the desk of administration information
3. Authority invites:
 - Oil port administration
 - Ecological services ecological, local and independent as well (R&D Institutes, designers etc.)
4. Experts answer professionally all questions of inhabitants both which was a subject of meeting and that arose additionally.
